

LIGHT TRAP SYSTEM

Light trap components are installed in a galvanized-steel module box.

FEATURES

The Dynamic Cool Light Trap is built with a non-glare, black plastic material that is resistant to pressure cleaning, sunlight, and chemical exposure. The frame's slots allow for the insertion of different sections, making it possible to customize it to any size needed.

- ✓ Maximum Light Reduction.
- ✓ The least amount of barrier to air movement.
- ✓ Installation is simple.
- ✓ It is simple to clean and meets hygienic standards.
- ✓ It is possible to assemble it in any size.
- ✓ Lightweight for ease of use.
