

POULTRY NESTING EQUIPMENT

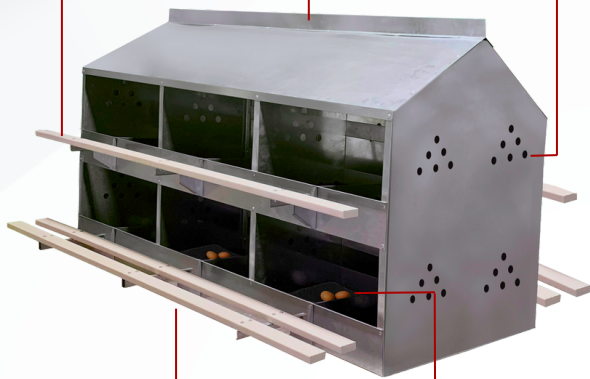

Rigid PVC Perch

Anti Roost

Well Vented Partitions

A Hinged Steel Perch for Open and Closed Nests

Rubber Nest Pad

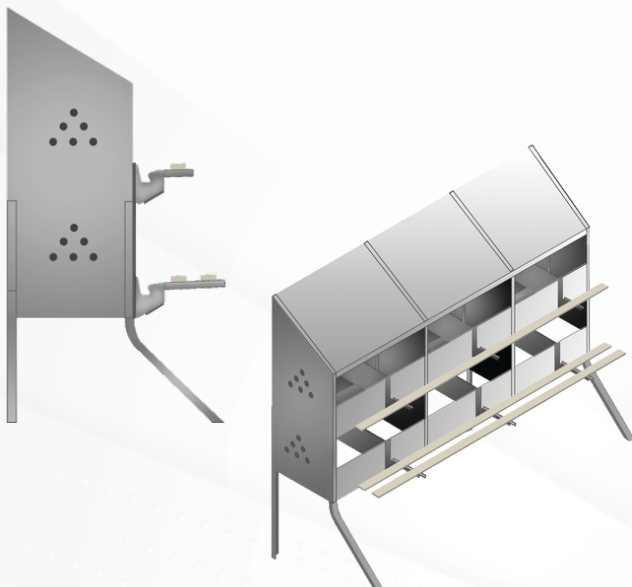

CONVENTIONAL NEST

Advantages

Introducing eco-friendly nests with waterproof and hygienic materials. Breeder nests have 10-12 compartments for birds.

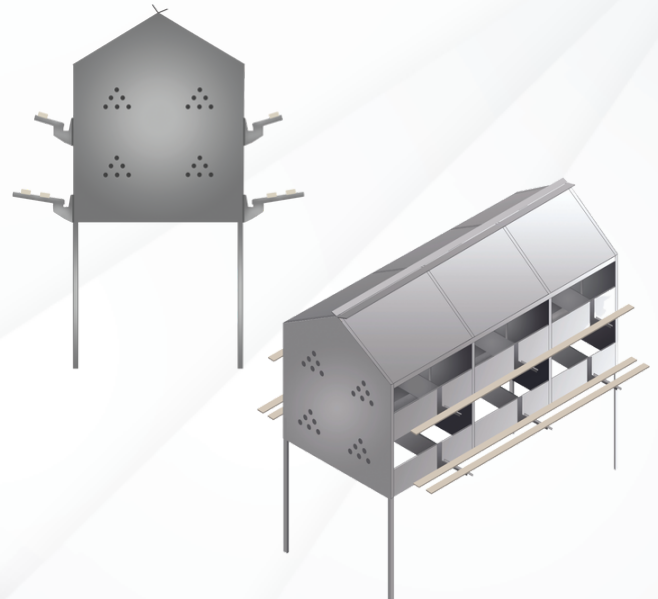

- Simple assembly process ✓
- Enclosed nests with sturdy steel perches ✓
- Hemmed edges to prevent harm to birds ✓
- Ventilated partitions to improve air circulation ✓
- Removable galvanized bottoms for effortless cleaning ✓

N12 S SINGLE SIDE NEST

12-hole 17kg birdhouse with a wooden perch and Nest Pad, Legs optional.

N12 D CONVENTIONAL NEST

24-Hole Nesting Box with Wooden Perch and Nest Pad, 33.5kg, Legs Optional.

AUTO NEST

Advantages

Invest in well-designed nesting spaces for hens to lay eggs consistently in a secure and stress-free environment, leading to high-quality egg production and success in poultry ventures.

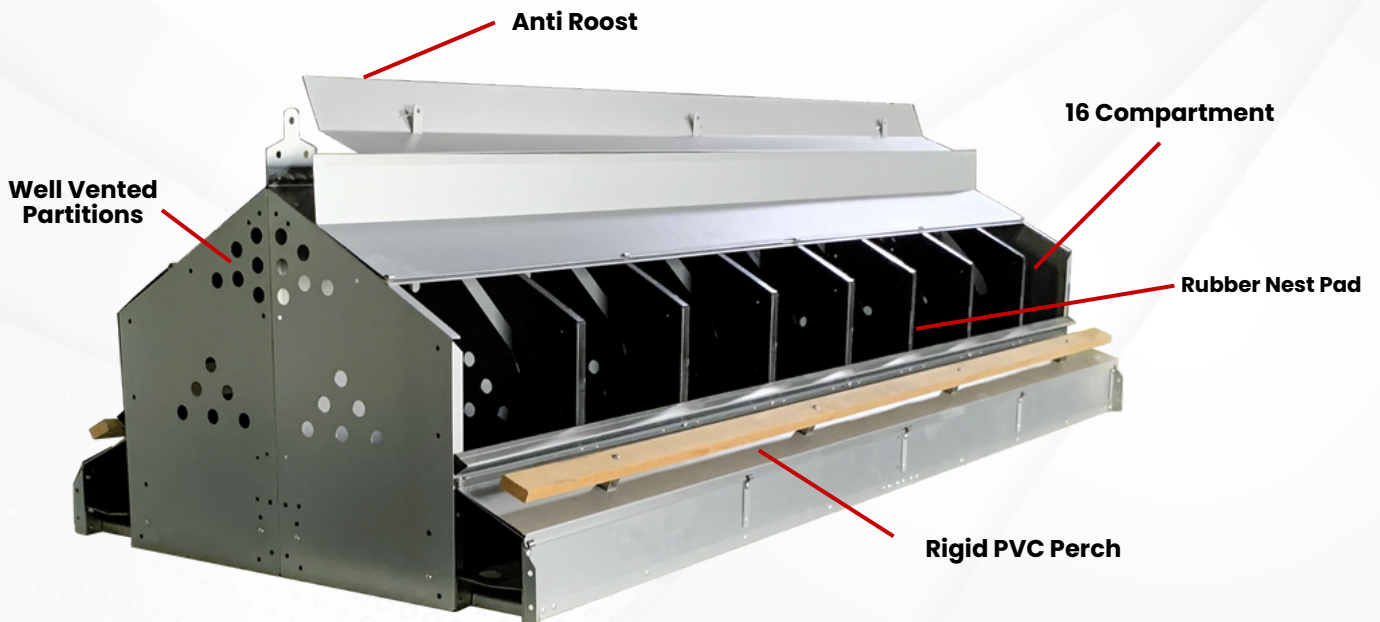

Automating egg collection enhances efficiency, reduces labour costs and errors. ✓

Consistent egg collection maintains cleanliness and ensures high-quality products. ✓

Sensors provide data on production trends, hen behaviour, and flock health for informed decisions. ✓

Increasing nesting box density optimises space and boosts egg production. ✓

Adopting technology helps farmers increase productivity, cut costs, and prioritise flock well-being. ✓

KEEP REENGINEERING, KEEP REINOVATING
