

BEZFLOW NIPPLE WATERING SYSTEM

KEEP REENGINEERING, KEEP INNOVATING

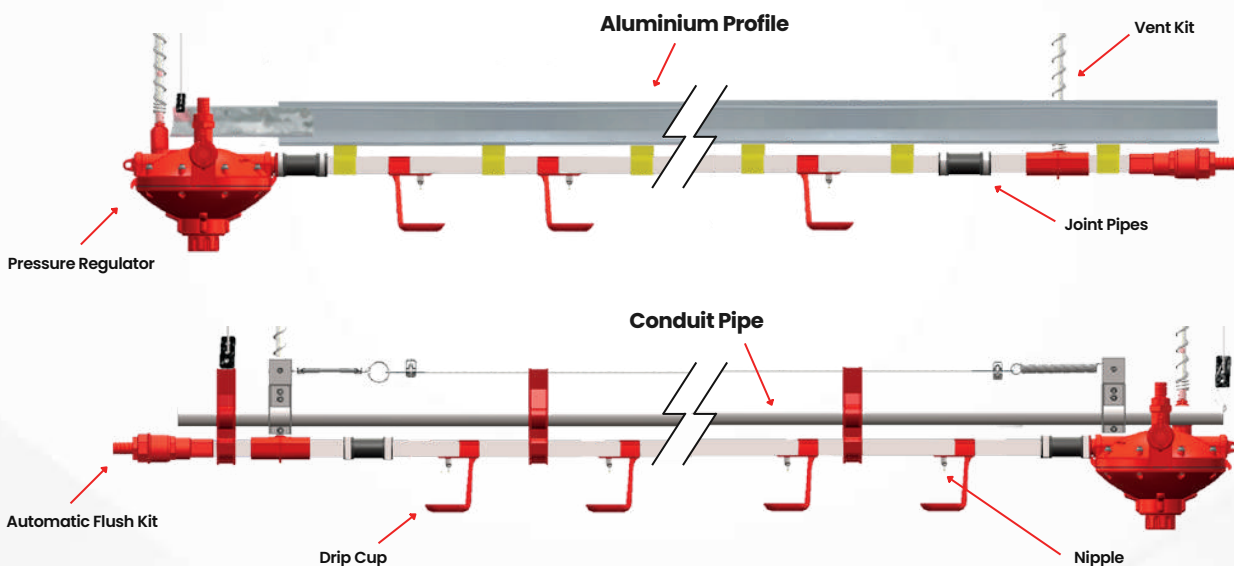

Bezflow Nipple Watering System

Bezflow Nipple Watering System is designed to provide hygiene and easy-maintain water supply to poultry farm.

In modern poultry production, Bezflow Nipple Watering Systems have proven to be reliable and hygienic for supplying drinking water. They can be composed of the following parts :

Features :

- ✓ Economical cum quality design with low maintenance.
- ✓ 360° soft trigger nipple can be used immediate on the 1st day rearing.
- ✓ 100cc/min high flow rate of watering can be achieved during grower stage.
- ✓ Drip cup will help to keep the litter dry.
- ✓ Optimum water pressure can be maintained by pressure regulator at all bird age.
- ✓ Nipple Pipe and Aluminum Profile support are totally rust resistance components.
- ✓ Automatic flush end kit makes flushing simply and easy.

Technical Information

Nipple Flow Rate : Up to 100 cc/min

Drip Cup : Included

PVC Pipe : 22 x 22 mm Square
14 feet / 4.27m per pipe

Support Rail : **Aluminum Profile** for broiler
14 feet/ 4.27m per rail
GI Conduit Pipe diameter 26.7mm
for breeder 10feet/3.5m per pipe

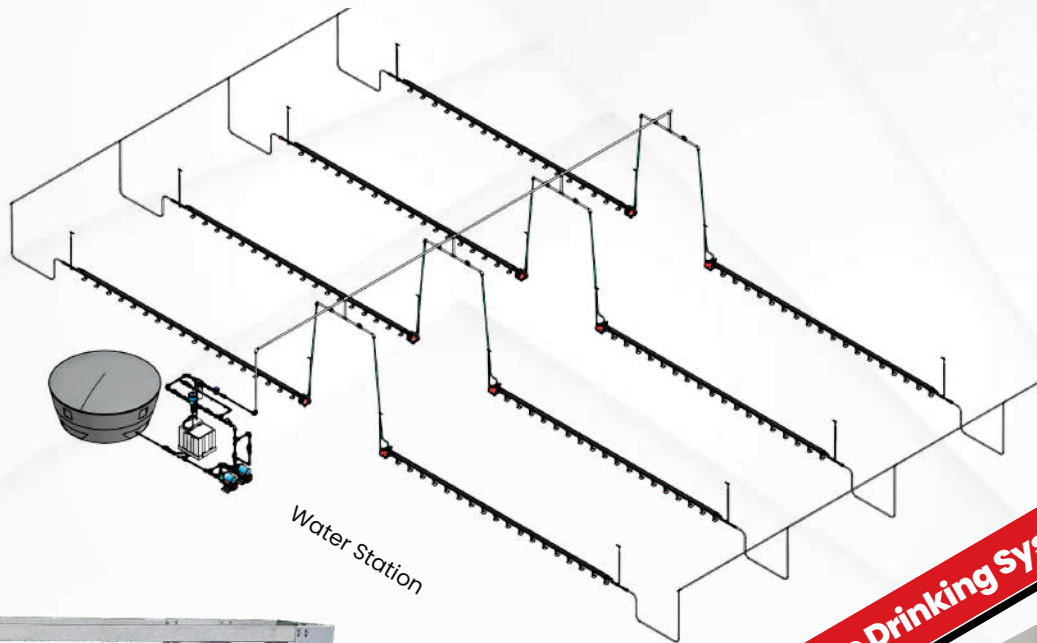

Recommended Broiler : 10 to 15
per nipple

Recommended Breeder : 8 to 10
per nipple

Pressure Regulator : Front or middle
arrangement
with flush kit

End Vent Kit : Auto Flush

Mid Vent Kit : Optional

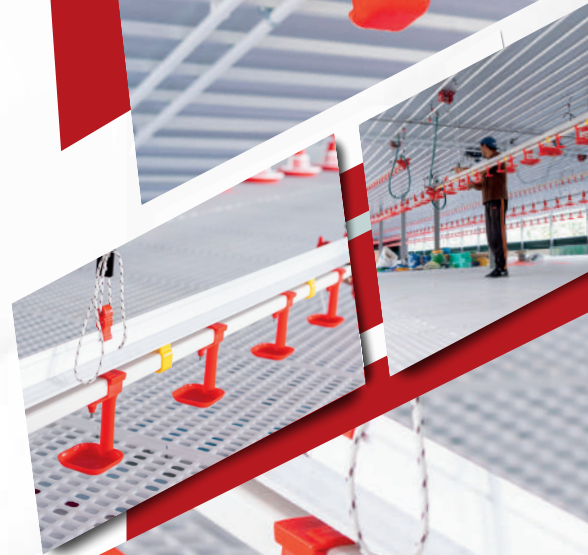

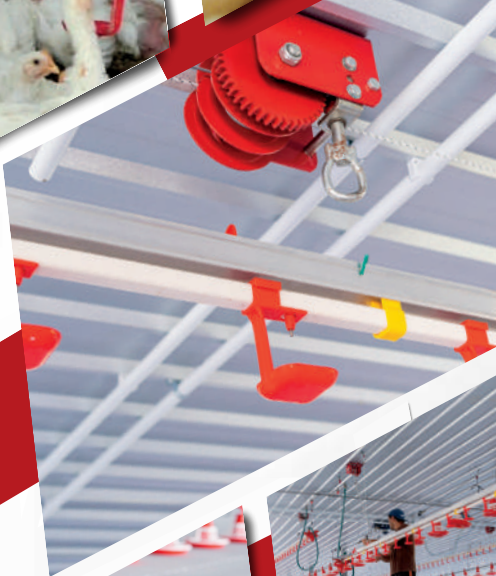

Water Station

Nipple Drinking System

Water Station

Features :

- ✓ *At all bird ages, main line pressure regulator booster pump can keeps the water pressure at the optimal level.*
- ✓ *Mixing tank will keeps powdery liquid stirred during the entire dosing process for better medication.*
- ✓ *Medicator makes the medication process simple with precise dosage without waste.*
- ✓ *The double filter system keeps the nipple lines clean and ensures drinking water with less impurities.*
- ✓ *At the end of medication, water with automatic supply and cleans the system continuously.*
